AN EXCELLENT FLOWER SHOW

Judge Finds an Embarrassment of Riches

One of the few things in life that always comes up to expectation, is St. Jude's Flower Show. When the heavens opened on Wednesday night and a violent rainstorm swept the town, some thought the doom of the flower show had been sealed. But evidently the gardeners had been wise enough to gather their treasures in good time, for when the Flower Show opened on Thursday the benches were crowded with an immense variety of beautiful blooms, many of them of highest quality. It was a sight to gladden the heart of the lover of things beautiful.

The Judge (Mr. William Grant) found some difficulty in judging the class for flowers of "Any Other Variety." This class gathers up all varieties that have not been specially provided for in the schedule, and on this occasion contained some of the finest blooms in the show, including such widely different flowers as tulips, rhododendrons, iris and peonies. First prize went to the rhododendrons of Miss S. J. Arnold, and second to a bowl of beautiful rose and gold tulips by Mrs. Herbert Marks, whilst peonies by Mrs. Read were very highly commended.

Amongst other notable blooms in the show were the champion rose, a fine bloom of Marion Manfold, grown by Mr. F. Booth; Japanese irises shown by Miss Marks and Miss Gurney, foxgloves by Mrs. Young, fine aquelegias from many gardens, antirrhiniums and a glorious display of roses.

Mr. William Grant judged the flowers and Mrs. Willsallen and Miss de Mestre the decorative classes.

Rev. T. H. Distin Morgan formally opened the show and thanked the many willing workers who had all helped to make it so successful.

Barrallier Rainfall

RECORD THIS YEAR.

Our Barrallier correspondent writes:—

The Postoffice guage recorded 307 points of rain during the month of October, and 200 points at the weekend. This brings the total for this year up to 3133 points. With eight weeks still in hand, this year has already exceeded all previous records. The greatest number of points recorded in former years was 3357 points in 1931. The annual average rainfall for the past 10 years is 2517 points.

Tennis

The tennis tournament held on Mr. H. A. Leonard's court at Moss Vale during the weekend in aid of Church of England funds, was well patronized. The ladies' doubles was played on the American system, it being necessary for the leaders in their respective draws to play off in the final. In the final, Mrs. M. Brown and Miss E. Campbell defeated Miss Meg Alcorn and Miss Denise Julian, 6-1, 6-5. A delightful afternoon tea was served the competitors and spectators.

Cricket

The following team will represent Bowral Sunday Club against Moss Vale Refreshment Room on Centennial Park on Sunday; play starts 1.30 p.m. sharp: J. Harrold, S. Neich, E. Noble, J. O'Sullivan, H. Chapman, K. White, M. Herbert, A. Herbert, J. Wadie, R. Neich, J. James.

ABOUT PEOPLE

Mrs. H. Cook has returned to Robertson after spending an extended holiday on the North Coast.

Maurice, son of Mr. and Mrs. Les. Marks, of Bong Bong Street, Bowral, was operated on for appendicitis in the District Hospital on Thursday morning.

Mr. H. Cowie has resumed duty as Headmaster of Bowral High School after a long absence due to ill-health. He is much improved in health though still showing signs of the trying time through which he has passed.

Mr. G. L. Sanbook, of Sydney, has been appointed ranger for the Water and Sewerage Board in the place of the late Mr. Rolfe, and with his wife and two children intends to reside in Bowral. Mrs. Sanbook is well known in the Berrima District, as prior to her marriage she was Miss Lebbie Hynds, of Mittagong.

Mrs. Catherine Robinson, of Townsville, was the fourth woman to settle in that North Queensland town, in 1864. She ran cattle on a 5000-acre holding with the assistance of aboriginals. She is still there and at 95 is the oldest woman resident in the North. Yet some folk tell us white women cannot live in Northern Australia.

Mr. Ted Smith, of Mittagong, met with a painful accident on Wednesday morning when a railway tricycle laden with bricks and cement ran over his right foot near Aylmerton. Although suffering considerable pain, he rode the tricycle to Mittagong, where he sought medical attention. An x-ray of the injured foot was taken at the hospital and disclosed that no bones had been broken. It will be some time before the genial Ted will be able to walk without limping.

Mr. Herb. Norman, of Bowral, was engaged in cutting wood at Milton Park, Bowral, on Tuesday, when the axe slipped and severed the first finger of his right hand near the first joint. He was taken to the hospital by car and returned home on Wednesday. Mr. Norman was to have been married to Miss M. Fordham, of Mittagong, on Wednesday night, but in view of the accident the wedding was postponed.

The generous offer by Miss Donkin of extended terms for the purchase of a Beckstein upright grand piano has enabled Bowral Choral Society to achieve an ambition long held. The need of a first-class piano has been felt keenly by the Society, and so elated were the members present at a recent practice by the good news that they at once subscribed nine pounds towards the funds. Those of our readers who appreciate the good work of the Society for the musical uplift of the community might well give expression to their feelings by sending Mr. Beavan a cheque for the piano fund.

Some ten weeks ago, that ceaseless worker for the good of Wild's Meadow and district, Mr. W. J. Little, was injured in a motor accident at Moss Vale. He has not been able to work since then and has also had to contend with illness in his family. To help him in these days of adversity it has been decided to tender him a Benefit Social next Wednesday and an appeal is made to all who know his worth to give it their heartiest support. Mr. Little has helped others on many occasions and the public he has served has now the opportunity to show its appreciation of his good work in a practical way. The social will be held in Burrawang Hall on Wednesday night.

WEDDING.

A pretty wedding was performed at Penrose when Mr. Edward Burrows, third son of Mr. and Mrs. Charles Burrows, of Tallong, was married to Frances Ellen, daughter of Mr. and Mrs. Keith Doherty, Penrose. The Rev. A. E. James officiated, and the bride was given away by her uncle, Mr. Hugh Goodinge, of Sydney. In her lace-trimmed white marocain frock, surmounted by veil and orange blossoms, the bride made a pretty picture. She carried a bouquet of arum lilies. Misses Madge and Laura Burrows acted as bridesmaids. Both were eau de nil flat crepe frocks with lame-trimmed caps, and carried bouquets of carnations.

Mrs. Oscar Murray presided at the organ, and during the signing of the register played "Because."

About 10 guests were subsequently entertained by Mr. and Mrs. Burrows at the Gumnut Tea Rooms, tastefully decorated for the occasion.

ELSA CORRY.

The many friends of Miss Elsa Corry, of Bowral, will be interested to hear that letters from London advise that after a few days sightseeing, she has settled down to serious study under Madam Hudson Holding, of London.

Miss Corry is naturally very thrilled with London and has much to say about the various historical and other interesting places she has so far visited.

It is difficult to decide what particularly interested her most, but she devotes much space in her letters to the famous Wallace Collection of paintings and objects d'art, Westminster Abbey, St. Paul's, and the Queen's Hall promenade concerts conducted by Sir Henry Wood.

It is interesting to note that the first musical production Miss Corry attended in London was a performance of "Merrie England," which will be produced by Bowral Choral Society at an early date.

Elsa wishes to be remembered to all her friends in the Berrima District.

SITE FOR THE PIGGERY.

POINTS IN ITS SELECTION.

Apart from the regulations under the Dairies Supervision Act, under which pigs may not be kept nearer than 50 yards from any milk room, hall, or yard, several points are to be considered when choosing a site for the piggery. In the first place the site on which the piggery is to be located should lend itself to being effectively drained. It should have a gentle slope, without being steep, and if the aspect is to the east, it will be so much the better in most cases. The drainage should be of a surface kind, the result of the fall or slope, and should not depend upon underground drains, which are apt to get choked up and can never be kept in the same sanitary condition as those to which the sunlight has access.
