Traffic Cases.

BOWRAL POLICE COURT.

There were several traffic cases at last sitting of Bowral Police Court which was presided over by Mr. M. J. Ryan, P.M.

Robert Brisbane, of Sydney, who had a list of previous convictions for parking offences covering a sheet and a half of foolscap was fined £1 with 8s. costs for failing to keep to the left-hand side of the road when stopping. The evidence of Constable Brooksby, of Bowral, was that defendant pulled into a bowser for petrol and parked his car facing the oncoming traffic.

Miss Noeline Yvonne Aboud, of Burradoo, was fined £1 with 8s. costs for driving at fifty miles per hour between Alcorn Street, Bowral, and Burradoo Road, Burradoo. Constable Baldwin of the traffic patrol, said that this area was subject to the 30 miles per hour limit and defendant admitted that she knew this.

Lister Sterling Henry, of Sydney, was charged with failing to keep as near as practicable to the left-hand side of the road when stopping. Defendant, who had a long list of convictions for various breaches of the Motor Traffic Act, was fined £2 with 8s. costs. Sergt. Bartholomew deposed that defendant stopped his car in front of Springett's Ltd. nine feet from the left-hand kerb. There was ample room for defendant to have parked his car alongside the kerb. Defendant said he was waiting for his wife who was doing some shopping and would only be a few minutes. Traffic was heavy at the time and police were stationed in the street to control it.

Roy W. King was charged with carrying goods for a distance of over fifty miles without a permit, Mr. Kellett appeared for the Transport Department, and Mr. G. F. O. Throsby for defendant, who pleaded guilty.

Mr. Kellett said defendant was seen carrying a load of furniture on his lorry at Wollongong. Defendant said to the inspector that the furniture was his own and he was transporting it from Mittagong to Austinmere. He thought the distance was under fifty miles. Later inquiries revealed that the furniture belonged to Mrs. I. Strachan, of Merrigang Street, Bowral. The cartage had been arranged through Mr. Stokes, of Bowral, who had since paid the fees of £2 5s.

Mr. Throsby said his client honestly believed the distance to be less than fifty miles and like other people when confronted by the Departmental inspector had foolishly told a lie. The money paid by Mr. Stokes had been on defendant's behalf.

Mr. Kellett said the distance by road between the places mentioned was sixty miles.

A fine of £1 10s. with £2 costs was imposed.

Claude Bunter was charged with riding a motor cycle which caused undue noise. Defendant pleaded not guilty.

Sergt. Bartholomew deposed that on 23rd December at about 12.25 p.m. defendant was riding a motor cycle across the intersection of Wingecarribee and Bong Bong Streets, Bowral. The cycle was making a loud noise and defendant parked it at the side of the road. Defendant was asked to start the machine and was told it was too noisy. The noise came from the silencer which was very worn as the machine had been neglected. Defendant said the bicycle had been registered two months earlier by the Moss Vale police.

Defendant deposed that he had been riding the bicycle around Bowral for some time. The bicycle was licensed by the Moss Vale police two months ago, and he had often ridden it past Bowral police. He had since fixed the silencer himself and would have done so before had he been warned.

Sergt. Bartholomew said there had been many complaints from hospitals regarding noisy cycles. If the silencers were kept in order and the bicycles carefully driven they did not cause undue noise. Some of the riders took the plates out of the silencers to give the machines more power. There were two or three other riders around the town with noisy bikes, but the police had not yet caught them.

A fine of 10s. with 8s. costs was imposed.

Bruce Spindler pleaded guilty to driving a motor cycle with a noisy silencer and was fined 10s. with 8s. costs.

Bowral Council.

It was decided to purchase a gas urn at the School of Arts from the Scottish Association at a cost of £5, so that it would be available to all users of the institution.

Mr. G. B. Willcock wrote offering to put either a cattle ramp or gate on the road leading through the Fairmount Estate as straying cattle were a constant menace to his property.

Ald. Venables said Council would be liable if any persons were injured on a cattle ramp put there. There were several ratepayers with land on the estate and if they objected Council could do nothing. He moved the owners of blocks on the estate be written to and asked if they had any objections to the erection of gates.

Ald. Beard seconded the motion which was carried.

A plan of a subdivision of land at the corner of Aitken and Park Roads was submitted for approval. Three of the blocks were 50 feet by 100 feet and the other 47 feet by 100 feet.

Ald. Cummins moved that the matter be referred to the Works Committee.

Ald. Beard seconded the motion.

Ald. Blacket and Ald. Boardman concurred in the view that the blocks were too small for the locality.

Ald. Venables said that if there were three blocks instead of four the plan would be better.

Ald. Boardman said the land was opposite the High School.

Ald. Venables said the average block in this locality was much deeper. He moved that the application be refused and the aplicant be advised that if the plan be submitted with three blocks instead of four it would be favorably considered.

The original motion was withdrawn and that moved by Ald. Venables was carried.

The offer of Bowral Cricket Club to paint the railing at Bradman Oval if the Council supplied the paint was accepted.

The Electrical Engineer reported that Council's Installation Inspector had spent a day with the Postmaster-General's Radio Inspector on patrol work for location of radio interference, and they were able to trace a number of faults on consumers' apparatus. One consumer reported receiving shocks when making contact with water taps and investigation showed that this was due in the first place to defective consumer's main and in the second place to the fact that the metallic town water pipe to which most installations were earthed for safety had been replaced on this street with fibrolite pipes so that the "fault" current from the installation was not effectively earthed. The installation had been put in order by the consumer, but steps were being taken to have all installations which were served by Fibrolite water mains multiple earthed to the Council's neutral which would ensure the safety of all such installations. The Water Engineer had been requested to advise him in future before any Fibrolite mains were laid so that consumers might be given notice to Council to the multiple earthed neutral system before the installation of the new water mains.

The Gas Manager again drew attention to the drop of gas pressure at peak times in the eastern portion of the town and asked that his recommendation of the laying down of an extra main as submitted in October and November, 1939, and in January, 1940, be adopted. The failure of the Council to carry out the work undoubtedly caused a loss in the sales of gas.

The matter was referred to the Gas Committee for report.

It was decided to paint a notice on the wall at the water supply dam warning people against trespass.

Wattle Street, Colo Vale.

Destruction of Blackberries.

ACTION AGAINST LAND-OWNERS DEFERRED.

At the meeting of Bowral Council on Wednesday night it was decided to defer action against landholders who had failed to remove blackberries from their land as required by the Local Government Act until the Council took steps to remove them from the roads.

The Ganger reported that the approximate area of blackberries growing on streets within the Municipality was:—Gladstone Road, 1 acre; Oxley Street, 1½ acres; King Street, 1 acre; Ellen Street, 1½ acres; Cliff Street, 1 acre; Reserve, top end Cliff Street, 1½ acres; Hamilton Avenue, ½ acre. A detailed list of other streets in which there was slight infestation was also submitted.

A detailed list of private properties on which blackberries had not been removed in accordance with the requirements of the Local Government Act, 1919, was submitted by the Health Inspector.

The Mayor (Ald. Boardman) said that spraying blackberries in Nattai Shire had been a waste of money as the plants were making thick growth.

Ald. Venables said it was not a waste of money. The blackberries had been sprayed in Nattai Shire when the sap was coming up. In one or two places where Bowral had sprayed last year when the sap was going down, the blackberries had been almost killed out. Council should get the use of the Nattai Shire plant and its men after the blackberries had borne fruit.

It was decided to defer action against the owners of these properties until Council commenced its eradication work.

Outstanding Rates and Charges.

OVER £6,000 DUE TO BOWRAL COUNCIL.

At last meeting of Bowral Council the Town Clerk reported that outstanding rates and charges at 31st December, 1939, was £6883 11s 2d. This was an increase of £328 6s. 1d. on the amount outstanding at 31st December, 1938. The arrears of rates and charges due was £6,555 and £1,810 or 27.6% had been collected leaving a balance of £4,745 to be collected. The curent rates totalled £13,624, of which £11,487 or 84.3% had been collected, leaving a balance of £2,137. The total percentage of rates collected was 86%.

Continuing his report, the Town Clerk said:—

Excluding extra charges the amount collected is £47 less than the amount levied for the year.

The position is not any worse than it was a year ago, but is far from satisfactory. I feel sure that some of the owners concerned could pay something.

The Council might authorise the cutting off of water supply, where same is connected, unless satisfactory arrangements for liquidation of debts by instalments are made.

I shall report at next meeting regarding properties which I think should be sold for rates.

Ald. Venables said Bowral was noted for its long standing debts. Council should take a firm stand in the matter. People should be informed that if some arrangements were not made to pay something off on to get them. There were people in the town capable of paying their rates, but they worked on money they owed rather than paying interest on an overdraft. He moved that a circular letter be put in with current rate notices that Council would take action to collect rates outstanding prior to this year. In other towns they had much less outstanding rates than Bowral.

Ald. Cordeaux seconded the motion which was carried.

Grasslands. Improvement

NOW IS TIME TO PREPARE FOR COMPETITIONS.

Local farmers who intend to take part in the grassland improvement competitions to be conducted by the Royal Agricultural Society should now be preparing for the planting season.

Although judging will not be carried out until the spring, it is essential for an early start to be made by farmers if their pastures are to be seen to advantage when the judges make their inspections.

This year's competitions are being confined to the coastal districts, following the practice by the R.A.S. last year of concentrating on only one of three sections of the State annually. This had to be done because of the magnitude of the task of judging vroperties in all three sections in a limited time each year. Consequently, after this year the coast will not come within the scope of the contests again until 1943.

Conditions of the competitions will be practically the same as those governing the contests in the coastal districts in 1938. In arriving at their decisions, the judges will take into account proportion of holding under effective improved pasture; pasture sward; management of grassland; other improvements, such as provision of shade trees and shelter belts, effective clearing and picking up of fallen timber, stock watering facilities, and utilisation of surplus pasturage.

The competitions will be conducted in collaboration with local pastoral and agricultural associations, who will stage local competitions, the winners of which will be eligible for the divisional championships.

Value of Competitions.

"It is to be hoped," said the secretary of the R.A.S. this week, "that, in their own interests, farmers will make every endeavor to participate. The competitions have been conducted for only two years, but sufficient knowledge has emanated from them to show how advantageous is the practice to the farmer. For instance, in the case of all farms judged for the coastal championship in 1938, monthly production figures for the period July 1, 1937, to June 30, 1938, showed very little variation, and indicated, in the words of the judge, Mr. J. N. Whittet, that, where winter pastures were available, the drop in production during the colder months of average years was not very material.

"At the same time, farmers should not overlook fodder conservation to tide them over dry periods. In addition to the storage of crop silage, dairy farmers should endeavor to cut and store surplus pasture growths, as this will not only increase the productivity of the farm, but will also leave grazing areas in better condition for the production of more nutritious pasturage."

S.P. Betting at Bowral.

TWO MEN FINED.

At Bowral Police Court on Friday before Mr. J. Ryan, P.M., two Bowral residents were fined for starting price betting. The Magistrate said there appeared to be little hope of stopping the Australian public from betting and they sought out such men as the two defendants to place their bets. The defendants, however, knew the penalty for unlicensed betting and were competing against men who paid heavy taxes and license fees.

William Charles Kember was charged with using a billiard room at Bowral known as the Bowral Sports Club for the purpose of betting on 30th December. Defendant pleaded guilty.

Sergt. Bartholomew said Sydney police found defendant betting on the premises. Forty-eight bets ranging from one to ten shillings were found in a book in his possession. Defendant had the sum of £4 19s. 11½d. Kember had been betting to his knowledge for some time and had been warned. Several complaints had been received from other sources and it was necessary for the matter to be reported to Sydney. Defendant had not previously been before the court.

A fine of £8 was imposed and the sum of £4 19s. 11½d. was ordered to be forfeited to the crown.

Gordon Shaw was charged with using a weatherboard cottage in Bong Bong Street, Bowral, for the purpose of betting on 30th December. Defendant pleaded guilty.

Sergt. Bartholomew said defendant was found betting by Sydney Police in the lounge room of his private residence. A book with sixty bets ranging from one shilling to ten shillings and the sum of £14 14s. were found in defendant's possession. Defendant had two previous convictions for similar offences.

Defendant said he had to do something. He had a wife and two children to keep and could not get the dole.

Sergt. Bartholomew said defendant had been on food relief, but had been put off because of betting.

Defendant said this was not so. He had carried out a small commission at the dog races for a man and had been put off food relief.

A fine of £15 was imposed and the sum of £14 14s. found on defendant was ordered to be forfeited.
