### Conveyance of Cabbages.

Mr J J Cleary, M.L.A., has forwarded the following official communication for publication:—Railway Commissioners' Office, Sydney, 11th February, 1922.—Sir,—With reference to your representations on behalf of the producers of Bowral and Moss Vale who desire to wait upon the Commissioners in connection with the new "up" journey and "A" class rates in the merchandise and live-stock rates book of the 11th ult, as now charged for cabbages from those places to Darling Harbour, I have to inform you that the matter has had inquiry and consideration. Cabbages and cauliflowers conveyed in the direction of Sydney are chargeable at up journey rates, subject to a minimum of 5½ tons per 4-w heeled truck, and at A class rate actual weight when in smaller quantities. These rates, prior and subsequent to 11th ult, from Bowral to Darling Harbor, 96 miles, are shown hereunder:—

To Darling Harbour from Bowral - Up journey per ton—prior to 11-1-22, 10s 7d; from 11-1-22, 10s 10½; increase 3d (2·36 per cent). A class rate per ton—prior to 11-1-22, 17s 3d; from 11-1-22, 21s 9d, increase 4s 6d (26 per cent).

The traffic from Bowral being generally in less than truck loads, A class rate principally applies, and in the recent revision of the traffic this rate was made a mean between the miscellaneous and B class scales, which are the next lower and next higher in the goods traffic. The reason for the revision, which was a general one, was to secure uniformity in the rates, which, because of periodical adjustments extending over a very long period had become disproportionate. In some in stances reductions have been made, but in others, such as that under notice, increases have unfortunately had to be made. The alteration in the case of A class traffic from Bowral to Darling Harbor represents an increase of approximately 2½d only per cwt, or about one-eighth of a penny per cabbage or cauliflower weighing 5lbs. In regard to full truck loads, the rates are practically the same. To vary the mileage scale from Bowral and adjoining places would involve a reconsideration of the whole position, which, it is regretted, cannot be considered in present circumstances. In view of the pressure of engagements, it is difficult, at present, to fix a date upon which the Commissioners could see a deputation, but I am in the meantime directed to state that the position is as set out above, in view of which a deputation may not be considered necessary.—Yours, etc (signed) W. J. Mosses, Secretary.

**To Electors of Wollondilly.**

I BEG to inform you that I am a Candidate for this Constituency at the forthcoming Election, in support of the National and Progressive Coalition. I am a staunch supporter of this Coalition, believing that only by a union of all those opposed to the present Government can a beneficial change be brought about. As a primary producer I know the dangers that threaten our agricultural industries, and as the safety of the State depends so much on freedom of trade being allowed to the farming and pastoral community, I feel sure of a generous support at your hands.
